

Competition economics advice

About us

RBB Economics is a world leading consultancy specialising in the economics of competition law. We provide independent expert advice on the highest profile cases, working with companies of all shapes and sizes around the globe.

We cover a broad range of industries and all types of competition settings including mergers, dominance inquiries, assessment of agreements (horizontal and vertical), information exchange and market investigations. We also regularly act as experts in private action/litigation matters, including under cross-examination, before courts, arbitration panels and specialist tribunals.

Why choose us

We help our clients navigate the data-intensive procedures used by the competition authorities. We recognise that every case is unique and we are responsive in our approach. By combining economic theory and sophisticated empirical techniques we develop arguments that are clear, credible and compelling.

We always reflect the market realities of the industry and the real-world dynamics of competition that our clients face.

300+ economists
covering 30 languages

18 offices worldwide

Worked on 3,000+ cases
across 120 jurisdictions
since 2002

Advised on one-third of
EU Phase II mergers in
the last 5 years
